

Everlast Wine Cellars

Everlast Wine Cellars

Install Your Own Wine Cellar

If your wine is good enough to save, it is too valuable and fragile to risk damage from poor storage. **Everlast Wine Cellars** will protect your wine from temperature fluctuations, vibrations and excessive light exposure as dark, cool, stable environments work best for wine.

Imagine the dollars you'll save by allowing your wine stock to mature to its full potential in a convenient and affordable Everlast Wine Cellar.

Advantages of Your Own Cellar

Your new cellar will keep your wine healthy and alive by ensuring that:

- Your wine is protected from large temperature variations.
- Your wine is stored at the right humidity avoiding cork shrinkage and mould growth.
- Your wine is securely stacked to limit jolts or vibrations from over handling.
- Your wine is protected against tainting from chemical reactions from exposure to direct sunlight.

The Everlast Wine Cellar

Rid yourself of the hassle of finding a builder with the experience and know-how of cellar construction. Invite Everlast to review your wine cellar needs and offer you a solution that will interest you. Everlast will install your factory-built concrete cellar under-ground adjacent to your existing home or under your proposed home, or extension, if you are about to build.

Cellars

Everlast Wine Cellars may be supplied to a circular design (1150 bottle capacity) or rectangular design (1000 bottle capacity). Cellars are supplied with lights and general power outlets. A floor grate and sump fitted with a submersible pump serves the dual purpose of collecting inside liquid floor waste and preventing outside ground water build-up around the cellar.

Cellar Fit-Out Options

- ✓ Cellar access options are roof entry [as illustrated over page] or wall entry.
- ✓ Roof Entry may be via a Spiral Staircase for circular wine cellars or Retractable Access Ladder for rectangular wine cellars.
- ✓ Retractable Access Ladders may be timber or aluminium. Each has spring counter balance systems that makes raising and lowering of the ladder so easy.
- ✓ Solid timber access doors.
- ✓ Yes! Everlast does supply and install shelving and racking systems in timber or steel.

Design Drawings

Everlast Wine Cellars are fully-engineered with computations & drawings supplied for Council Building Permit application.

For Cellar Capacities & Options –see overpage.
